

<i>Title:</i>	<i>ORTIALTI. High gardens. Farm your rooftop. Enjoy sharing!</i>
<i>Description of best practice:</i>	<i>Collaborative project to build and manage community gardens on the roofs of buildings of various kinds (schools, libraries, condominiums, office buildings, manufacturing buildings, supermarkets) through the direct involvement of communities that live or use them. In addition, it aims to develop an education program for local technicians for the acquisition of agronomic, technological and legislative knowledge related to the production sectors considered.</i>
<i>Promoting actor:</i>	<i>Partnership</i>
