

Title:	VàZapp'
Description of best practice:	<i>The idea is to create co-working spaces inside a greenhouse with a partial photovoltaic roof capable of supporting off grid, furnished with plants and desks, internet connection, a small conference room, a place for refreshment, gardens and an amphitheatre of straw where to take lessons outdoors. All this on the ground of a farmhouse in the heart of Tavoliere delle Puglie (Apulia tableland). A structure that can accommodate young people that are together and put together their knowledge in order to develop ideas that welcome young people from all over the world and start-ups in agriculture, tourism and sectors associated with them. VàZapp wants to be a meeting place for sharing and comparing knowledge, ideas, projects, and passions, an agora, a cloud where collaboration creates relationships.</i>
Promoting actor:	Association
