

<i>Title:</i>	<i>Agrosphera</i>
<i>Description of best practice:</i>	<i>Agrosphera is a project that involves a physical site (a farm) nestled in the greenery, where all production is directed to food education. The guests of this structure are the producers themselves that follow the season cycle and the natural growth of the products; guests are the curators of their own plate, they collect, transform and cook their meals following the guidelines drawn up by nutritionists and psychotherapists (for guests with eating disorders).</i>
