

*Title:* ArcolaBio

*Description of best practice:* Production of yarns with eco-sustainable characteristics, obtained from spontaneous, non-conventional botanical species, usable in traditional weaving and applicable to innovative methods such as digital fabrication.

*Promoting actor:* Enterprise

*Nature of promoting actor:* Public

*Country:* Italy

*Productive sector:* Agriculture

*Food chain:* Textiles

*Problem to respond:* Traditional products

*Innovation Level 1:* Product innovation

*Innovation Level 2:* New product

*Realized innovation:* Production of yarns with eco-sustainable characteristics

*Patent:* no
